Subject: Help Residents with Financing

Dear FHA,

We have been stuck in a manufacture home community for 6 years unable to sell. I respectfully ask that you start loan programs for manufactured home communities which would make it much easier to sell my current home and move on. We have over 100 citizen in our community and not one of them in 6 years has ever been able to resell their homes and end up walking away from all their equity in the house when they want to move not to mention the scare to their credit.

Best Regards,

Mike DeVore
