Mr. Pollard,

As an owner of a manufactured home in a Land Lease Community, I am extremely saddened by the proposal to not allow Fannie Mae or Freddy Mac to finance these homes.

In my opinion, it is discrimination of over 10 million homeowners!!

With the housing market in such a downturn, how can you possibly support a measure to make it worse. What are we supposed to do with our investments? Our home is currently on the market due to unfortunate medical reasons. We know, if able to sell, we will take a huge loss, but prospective buyers not being able to finance is NOT acceptable.

Please reconsider. These communities will become Ghost Towns, if this proposal is enacted. Please do the right thing.

I look forward to your reply.

Sincerely,
Mary Leo
