Subject: Guidance to Restrict Government Sponsored Enterprises (GSEs) from Investing in Mortgages with Private Transfer Fee Covenant

The money collected at the time of closing is placed into a Foundation that allows numerous activities for the residence of the Sienna Plantation development. Without the funding as it is presently setup our yearly assessment fees would be measureably higher and not affordable.

The advantage of this funding method is for the residence and has nothing to do with the developer.

As residence of Sienna Plantation, Missouri City, Texas we requested that the proposal not be approved.
