Subject: Comments regarding RIN 2590-AA42

As a senior, I was badly affected by the economic collapse. It i morally wrong that honest, decent citizens should be ripped off by greedy, immoral people who deal with money.

Stop bonuses altogether. Give healthy raises if people perform well, but not tied to stock options. there are always really simple, straightforward ways to clean things up. Make laws with no loopholes & heavy punishment if the laws are violated. Simple. thank you.
